This is the third Office action for application serial number 10/575,403, Equipment Support Having Rotatable Bumpers and Hooks filed April 10, 2006. Claims 1, 3-8, 10-25 and 27 are pending.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 27 is rejected under 35 U.S.C. 102(b) as being anticipation by U.S. Patent No. 5,366,191 to Beganich. The present invention reads on Beganich as follows: Beganich is a patient care equipment support comprises an equipment supporting portion (12) and a coupler (28). The equipment supporting portion is configured to support patient care equipment (24). At least one member (14, 16) is rotatably coupled to the equipment supporting portion. The coupler (28) is coupled to the equipment supporting portion and extending generally downwardly therefrom. The coupler has an upper tapered portion (60), a lower tapered portion (72), and a generally cylindrical intermediate portion (76, 78) disposed between the upper and lower tapered portions.

Allowable Subject Matter

Claims 1, 3-8, and 10-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.
